

New Program!

Cannabis Business Fundamentals

Certificate of Completion with the Business Management Degree

There is a growing need for skilled technicians and specialists who can enter this exciting field as dispensary staff, product managers, marketing/sales associates. There are over **30 states** that currently have legalized medicinal marijuana & each year more states are legalizing it for recreational use. As a result of the legalization, you may find the marijuana industry an attractive one to enter and now EGCC can help you begin!

This certificate is embedded in the Business Management degree and will best position a graduate to obtain gainful employment in a dispensary and provide a jumping-off point into more advanced study into horticulture, pharmacology, and other higher-level topics. This program is fully online and will consist of the courses listed below.

- Introduction to Cannabis
- Cannabis Law & Policies
- Cannabis Symptom Management
- Cannabis Retail Customer Support
